(57)Abstract:

PURPOSE: To process both the card of a prepaid system and cash and to prevent the confusion of processing even when using media are thrown in a mixed condition by making a constitution to process card processing with priority on processing the cash.

CONSTITUTION: When a card is inserted into a card inserting port 60, a main controller 10 transmits a signal to indicate card insertion to a cash controller 12, and the cash controller 12 makes a solenoid for driving 45 act and closes a coin throwing gate 44. Then, after magnetic recording is executed normally, a card carrying conveyer 64 exhausts the card to an exhaust port 69. On the other hand, after the main controller 10 transmits the signal to indicate the card insertion to the cash controller 12 and fixed time passes, when the cash controller 12 receives the signal of the effect that the passing of a coin is detected with a coin detector 46, a card controller 15 receives the transmitting of the signal of card returning and drive-controls a motor for card 65 till the card stopping temporarily of which magnetic recording content is read is exhausted to the inserting port 60.
